

## Comparison of Local Utility Rates

The District regularly compares its water and wastewater rates to other local utility providers. As of 2011, the District's combined water and wastewater rates, for a household using 10,000 gallons of water during the month of July, compared very favorably to the combined rates of other utility systems in the area. The District's combined rate of \$74.50 was \$30.48 below the average of those surveyed.
